HARDING WILL USE FULL TARIFF POWER

To Reorganize Federal Com-
mission and Apply Re-
medial Rates.

IS LAYING SOUND BASIS

President Expected to Head
Off Attempts of Special In-
terests to Control.

Special Dispatch to THE NEW YORK HERALD.
New York, Oct. 9.—A
Washington, D. C., Oct. 9.—

Under the Fordney-McCumber tariff
act the United States Tariff Commission
will become a real factor in adjusting
import duties. The provisions of the
law outlining the duties of the commis-
sion give power never before delegated
by Congress to that body, and President
Harding will do what he can to bring
about a scientific and proper regulation
of duties.

The law authorizes the President to
increase or decrease duties if he finds
that those fixed by Congress do not
"qualify the differences in costs of pro-
duction in the United States and the
principal competing country," provided
"that the total increase or decrease of
such rates of duty shall not exceed 50
per cent. of the rates specified in this
act, or amendatory act."

President Harding is to reorganize
the tariff commission to carry out the
specific provisions that delegates power
to him to decrease or increase duties
imposed by Congress.

Many advocates of a scientific tariff
written by experts believe that Mr. Har-
ding will make import duty changes
popular and permanent.

Daniel C. Roper, a member of the
Tariff Commission under the Wilson ad-
ministration and former chief clerk of
the House Ways and Means Committee
said today: "The question is, will the
Tariff Commission be permitted to func-
tion as it should with its added power
or will it be ignored for a general in-
visible tariff commission, governed by
special interests."

He believes that the President will see
that the Commission functions.
The Tariff Commission as organized
now is composed of Thomas O. Marvin,
Republican (Mass.), chairman; W. S.
Culbertson, Republican (Kan.), vice-
chairman; David J. Lewis, Democrat
(Md.); Edward P. Costigan, Republican
(Col.); Thomas Walker Page, Demo-
crat (Va.); and William Burgess, Re-
publican (Pa.).

President Harding has not indicated
what changes he will make in this com-
mission. Chairman Marvin was a Min-
ister of the Universalist church, editor
of the Protectionist and secretary of the
Home Market Club of Boston, before
coming to the commission. Mr. Cul-
bertson was an attorney in Washington
and a student of foreign commerce. Mr.
Lewis is an ex-member of Congress and
labor organization leader. Mr. Costigan
practiced law in Utah and was a pro-
hibition advocate in Colorado. Mr.
Page was professor of economics in the
University of Virginia. Mr. Burgess
was a manufacturer in Brooklyn and
an expert on pottery. He wrote a treatise
on the English pottery industry.

Death Rate of the Nation at Its Lowest in 1921

WASHINGTON, Oct. 9.—A
record low death rate was
established last year in the
United States, according to an an-
nouncement to-night by the De-
partment of Commerce. The 1921
rate was 11.7 a thousand population
as against 13.1 in 1920. The
infant mortality rate also de-
creased, the rate for 1921 being
76 a thousand as against 86 a
thousand in 1920. The figures are
for the registration areas of the
country and cover a population of
70,425,000.

The birth rate for 1921 was 24.3
a thousand as against 23.7 a thou-
sand in 1920. There were 1,714,961
births in the registration area for
the year.

The total of deaths was 825,511,
of which 129,598 were of children
under one year old.

CHAMBER OF COMMERCE OF U. S. TO MEET HERE

Convention Will Bring 5,000
Delegates From All Sections.

The Chamber of Commerce of the
United States will hold its annual con-
vention in New York city May 7-10,
next year. It will bring to New York
some 5,000 delegates from all parts of
the United States representing upwards
of 1,000 commercial and trade organiza-
tions which are members of the national
chamber.

The invitation to meet in New York
was extended by the Merchants' Associ-
ation, one of the founders of the na-
tional chamber. This will be the first
convention of the chamber to be held in
New York.

It will make its headquarters at the
Waldorf-Astoria.

TWO INJURED IN PANIC TO GET OFF STREET CAR

Passengers Alarmed When
Short Circuit Developed.

Two persons were injured in a panic
last night when a short circuit de-
veloped in the motor box of a Steinway
avenue trolley car carrying sixty per-
sons across Queensboro Bridge. The
car had gone about 100 feet past Second
avenue on the entrance of the bridge
when a blue flame shot out of the motor
box and smoke filled the car.

There was a rush for the front and
rear doors. Charles Benhan, motorman,
and Charles Kassel, conductor, assured
the crowd there was no danger, but
the occupants of the car fought to get
out until the car was empty save for
two elderly persons. One of them, Mrs.
Antoinette Doyark, 50 years old, of 20
Eighteenth avenue, Woodside, Queens,
had a broken right wrist and a broken
right ankle. She had been knocked
down and trampled upon. Adam Roe,
64, of 150 Amity street, Flushing, was
knocked down, but his chief trouble was
shock and hysteria.

ROB CANADIAN BANK OF \$2,300.

WINNIPEG, Manitoba, Oct. 9.—A masked
robber entered the Altona branch of the
Bank of Montreal to-day, locked the
manager and a clerk in the vault, un-
locked the teller's cage, scooped up
\$2,300 and escaped in an automobile
containing three other men. Altona is
about ten miles from the Manitoba-
North Dakota boundary.

W. H. VANDERBILT TO BECOME A BANKER

Son of Lusitania Victim Gets
Place as Clerk With Trust
Company.

William H. Vanderbilt, namesake of
his great-grandfather and son of Alfred
Gwynne Vanderbilt, who was drowned
when the Lusitania was torpedoed by a
German U-boat on May 7, 1915, has,
the approach of his twenty-first
birthday, decided to make banking his
career and has entered the employ of
the United States Trust Company at 45
Wall street. This heir to an ample por-
tion of the great Vanderbilt fortune has
started at the foot of the banking lad-
der as a clerk with the intention of
perfecting himself in all branches of
finance.

When seen last evening in the Hotel
Ambassador, which he made his home
to this city upon his recent return from
Newport, Mr. Vanderbilt said: "There
is not much to be said except that I
have decided to learn the banking busi-
ness and have obtained a position as a
clerk with the United States Trust
Company."

Mr. Vanderbilt was born on November
24, 1901. The marriage of the late
Alfred Gwynne Vanderbilt and Miss
Ellen French, daughter of Mrs. Francis
Ormond French of Newport and New
York, had taken place on the previous
January 14. The only child by the
marriage, he was brought up in New-
port and educated at St. George's School
there. Finishing at that preparatory
school it was said that he would try for
an appointment to the United States
Naval Academy at Annapolis. The de-
cision was not carried out, but, although
under age, he served in the navy in
American waters during the war.

Mr. and Mrs. Alfred Gwynne Vander-
bilt were divorced in 1908. In December,
1911, Mr. Vanderbilt married Mrs. Mar-
garet Emerson McKim, former wife of
Smith Hollins McKim of Baltimore. Mrs.
Ellen French Vanderbilt became the wife
of Paul Fitz Simons, a Lieutenant in the
United States Navy. Mrs. Margaret McKim
Vanderbilt now in Mrs. Raymond
T. Baker.

The appraisal of the property left by
the late Alfred Gwynne Vanderbilt re-
vealed a net estate of \$17,360,522. Of
this William H. Vanderbilt received the
power of appointment in a trust fund
valued at \$4,612,038, and Oakland Farm,
his father's Newport estate. For the
maintenance of Oakland Farm the son
was given a life interest in \$400,000.

MRS. LEBAUDY-SUDREAU IS VICTIM OF ROBBERS

Apparel Worth \$500 Stolen
From Westbury Estate.

Dominic Posillio, caretaker at Phoenix
Lodge, the Westbury, L. I., estate of
Mrs. Jacques Lebaudy, who recently
married Henry Sudreau, French detec-
tive, in Paris, found yesterday that the
cottage had been forcibly entered, prob-
ably some time last week, and apparel
valued at \$500 stolen. The intruders
used a saw in effecting an entrance.

WOULD HALT CHOLERA SPREAD.
Tokio, Oct. 9. (Associated Press).—
The Japanese Government has ordered
a thorough examination of all passen-
gers booked for America because of the
cholera epidemic in this country.

WOMAN GOES TO TRIAL ON CHARGE OF ARSON

Accused of Firing House
Where Seven Lay Sleeping.

Mrs. Katherine Allers, a gray haired
woman, was placed on trial before Su-
preme Court Justice Lewis in Brooklyn
yesterday, charged with arson in the
first degree, the penalty for which may
be forty years. It is alleged that Mrs.
Allers on the night of April 13 set two
fires in an old two story frame house at
East Fifty-third street and Avenue M,
in the Flatlands section.

John Williams and his wife and five
children were sleeping in one part of
the old building. Mrs. Allers owned it,
having bought it for \$106. The struc-
ture was on the line of a new street and
would have to be moved. It was insured
for \$5,000. Candles and oil soaked rub-
bish are said to have been found after
the fires were put out. The case is be-
ing heard by a jury and will be con-
tinued.

OFFERS PLAN TO MAKE PARK AVENUE WIDER

President of Borough Favors
City Assessment.

Plans for widening the roadways of
Park avenue between Forty-sixth and
Fifty-sixth streets have been submitted
to the Board of Estimate by Borough
President Miller. It will be done by
narrowing the center park spaces from
fifty-six to thirty-eight feet. Park Com-
missioner Gallatin has consented to the
change, but it is believed the Legislature
must enact an enabling measure.

Hearings will be held to determine
whether the cost of the improvement, in
the neighborhood of \$500,000, will be
assessed upon a local area or upon the
entire city. President Miller will fight
for the latter plan on the theory that
Park avenue is a great city artery.

President Miller also plans to widen
the roadway between Fifty-sixth and
Fifty-seventh streets by reducing the
width of the sidewalks from twenty-two
to fifteen feet.

S. O. MELONS NEW

WALL ST. FETISH

Speculation of Wildest Sort
Goes on in Standard
Stocks.

Wall Street has a new fetish. It is
Standard Oil melons. Speculation of
the wildest and most violent kind has
been going on in the Standard Oil stocks
in the last fortnight and more in an-
ticipation of all sorts of distributions,
dividends, etc. It culminated yesterday
in a wild buying movement in various
stocks of the Standard group in which
one stock advanced from \$1,345 to \$1,529
a share, a gain of 175 points. That was
Atlantic Refining, always a wide mover
and one in which speculative interest is
usually small.

Proportionately great, however, were
the advances made by others of the
Standard group in which there is a
greater public interest. Standard Oil of
New Jersey was bid up in an almost
frantic manner to a new high record
of 246½, an advance of 18 points from
the close of Saturday. On the Curb the
gains were equally huge. Vacuum Oil,
whose directors meet to-day, attained
a high of 67½, a gain of 60 points over
the weekend, while Standard Oil of New
York advanced 40 points, to 67½, later
losing all but 18 points of its gain.

Back of all the wild, unreasoning
buying of Standard Oil stocks is the ex-
pectation that they will cut large, juicy
melons. Since Standard Oil of Cali-
fornia and Standard Oil of New York
announced their big stock distributions
last week the scramble to secure the
stocks of the other companies has been
great. The reason assigned in the
financial district for the sudden disposi-
tion to pay big stock dividends, is a
fear that the government will impose a
heavy tax against big surpluses next
year as a means of raising additional
revenue with which to meet its deficit.

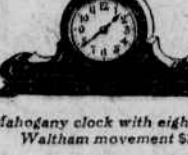

ADAM DE LUXE
THE INSTRUMENT OF QUALITY
Sonora
CLEAR AS A BELL

To that widespread modern taste for daintiness and grace combined with a classic simplicity, the refined Roman lines and exquisite finish of the Adam de Luxe Sonora will make a sure appeal. As a musical instrument of marvelous tonal quality the Adam de Luxe has no equal for the critical music lover.

At the Sonora Salons the most discriminating will find a wide choice in the more expensive as well as popular priced Sonoras. Your examination of them is cordially invited. \$50 to \$3000.

HELPING
the
helpless
of New York

This is what it means!

- 6 hospitals
- 8 child-caring institutions
- 5 organizations dealing with delinquents
- 3 homes for the crippled and deaf
- 1 home for the aged
- 7 Talmud Torahs
- 20 community centers
- 6 summer vacation homes helping in various ways
- 35 societies and organizations combined for economies of operation in one Federation for the Support of Jewish Philanthropic Societies of New York City.

Write one Check for all

Before the 91 institutions of Federation were federated, there were 91 separate "drives" for necessary funds, 91 separate demands on the Jewish citizens of New York. Each drive was for a worthy cause but the waste of time and energy was enormous.

Now, through Federation, each institution presents its budget to a central finance group. Waste of money and waste of effort in collection is reduced to a minimum. You are asked, each year, to give once for all.

This year, more dollars are needed. A million dollars more. The work of the 91 institutions of Federation must go on. Their doors may not be shut to any who ask for help.

**Armstrong's
Linoleum**
for Every Floor in the House

**Kitchen disasters
do not harm the
linoleum floor**

MODERN linoleum doesn't look common-
place. It is made in pretty, cheerful-
looking colors and attractive designs. A floor
of linoleum will go far toward making your
kitchen a pleasanter place in which to work.

Also, linoleum is readily cleaned and doesn't
soil easily. Bacon grease may spatter, flour
may be spilled, any kitchen disaster may over-
take a linoleum floor, without serious results.
Dust and dirt do not rub into it. An occa-
sional washing keeps it looking bright and new.

Genuine linoleum is firm, resilient, quiet,
smooth, and permanent. You can get Arm-
strong's Linoleum in printed designs, or in
inlaid patterns where the colors run clear
through to the burlap back.

Write for our booklet, "Decorative Lino-
leum Floors," which contains twenty-four
color plates showing different patterns of
Armstrong's Linoleum, suitable for any room
in your house. Any good furniture or depart-
ment store will show you the particular colors
and designs you want, and will also give you
estimates of the cost of Armstrong's Linoleum
laid in your home.

But when you buy linoleum, remember
what linoleum is. It has a burlap back that
you can see. Some floor coverings are mis-
taken for linoleum that are not linoleum at
all. They contain no cork, no linseed oil,
and are not pressed on burlap. To be sure
you are getting genuine linoleum, look for the
Circle "A" trade-mark on the burlap back.

Armstrong's Linoleum Rugs

For people who live in apartments or who have
houses on short leases and consequently do not
wish to install permanent linoleum floors, Arm-
strong's Linoleum is also made in the form of
bordered rugs. Thirty attractive patterns in four
sizes from 6 x 9 feet to 9 x 12 feet.

ARMSTRONG CORK COMPANY, LINOLEUM DIVISION
Lancaster, Pennsylvania
New York Office—212 Fifth Avenue
Telephone—Madison Square 1700-1701-1702

**Why Bankers Use
World-Wide Wireless**

In dealing with their foreign correspondents,
bankers require prompt replies as well as ac-
curacy, speed and economy. Radio for a long
time has been used by the bankers of New York
and San Francisco because it brings rapid
answers. No form of communication
arrests attention so successfully as

Radiograms

Embassies and legations in Washington have
used radio extensively because of its speed,
accuracy and economy.

The Radio Corporation of America now is
able to provide nation-wide access to its World-
Wide Wireless facilities.
